EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

- a. In claim 4, line 11 "includes" was changed to: --including--, for proper grammar.
- b. In claim 17, line 16, --and--, was inserted after "roll;" for proper grammar.
- c. In paragraph [0022], line 2 as amended 6/30/06, --schematically shown at--, was inserted before "49" to avoid issues of new matter (the location, shape, etc. of the air reservoir).
- d. In paragraph [0030], line 2 as amended 6/30/06, --schematically shown at--, was inserted before "80" in order to avoid issues of new matter.

Upon reconsideration, regarding the objections to claim 11 that a vehicle height sensor is not shown or disclosed in the first Office action, block 104 can be a height sensor according to the disclosure.

2. The following changes to the drawings have been approved by the examiner:

Claims 2 and 3 were each amended to add a block diagram represent air reservoir 49 and pyrotechnic device 80 (the proposed replacement sheets submitted by applicant on 6/30/06 were not approved by the examiner. These sheets would have resulted in new matter (there was no support in the original specification for the proposed locations of parts 49 and 80; modifications cannot be shown in the same figure according to 37 CFR 1.84h (5); the air reservoir where indicated would not have introduced air to the bladder 44, as the structure at 48 only moves the diaphragm plate to release air. Reference numeral 74 and its lead line were removed because that numeral is not discussed in the specification). In order to avoid abandonment of the application, applicant must make these above agreed upon drawing changes.

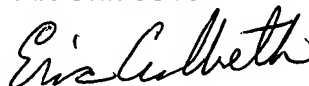

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Eric Culbreth whose telephone number is 571/272-6668. The examiner can normally be reached on Monday-Thursday, 9:00-6:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Paul Dickson can be reached on 571/272-6669. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
